Declassified in Part - Sanitized Copy Approved for Release 2013/08/28 : CIA-RDP89-00244R001804420011-6

SUBJECT: ILSP Working Group Meeting Minutes - 7 March 1988

The meeting followed the scheduled Agenda (Attachment 1).

2. Old Business

A. The minutes of the previous meeting were approved. A memo was sent to OIT, OL, and OS by C/NBPO/OL, stating that the subject of unsatisfactory conduit for security alarms brought up under OS topics at the last meeting (5A) has been known for a long time and those responsible were aware of the problems.

B. The DO has not yet named an alternate ILSP WG member.

3. OL Topics

A. An updated NHB North Tower Schedule (Attachment 2) was presented by [redacted]. Additional planned dates for OL, OIT, and (hopefully) OS activities will be added to the schedule by the next ILSP meeting. STAT

B. [redacted] reconfirmed the ownership of the Information Service Centers (ISCs) that will be in the NHB. The 2nd floor South Tower ISC will be owned by DO/IMS and the four other ISCs will be owned by OIT/CSG. There will also be five ISCs established in the OHB as a part of the Backfill Program. STAT

C. [redacted] provided an update on the fit-up work in the NHB. He stated that the OTS renovation on the ground floor of the North Tower was proceeding on schedule. The MPSS renovation on the fifth floor will commence shortly, with for completion the end of March. Construction drawings and specifications for the five OSWR equipment rooms that require HVAC and electrical modifications on the third, fourth, and fifth floors North Tower are in 20 percent design review. The ISCs on the second and fifth floors North Tower for OIT are in final design. The office space design for SE is in progress, and the 35 percent submission is due 11 March 1988. We are waiting on design comments from OSWR/TTAC and NAASW located on the third floor South Tower. STAT

D. [redacted] commented on the NHB survey work and stated that requirements gathering for the OGC and OIG have been completed and passed to the A & E Firm for design. Requirements for OP and OIT are nearing completion and office space design will follow. STAT

Declassified in Part - Sanitized Copy Approved for Release 2013/08/28 : CIA-RDP89-00244R001804420011-6

SUBJECT: ILSP Working Group Meeting Minutes - 7 March 1988

E. A meeting was held by OL/ NBPO with other responsible groups to review the status of NHB CCTV. Money has been allocated by OS for 5 locations and the project is now back on track.

F. Opening of the first floor NHB connector corridor has been delayed until 14 March 1988.

G. "Flash passes" are now available for use for access to the NHB. It is only necessary for one person in a group to have the flash pass.

H. The "General Furniture Rules for NHB" issued 17 December 1987 was again cited as the policy for furniture moves into the NHB. Conservafiles (and equivalent files) that are in good condition will be moved. There was a lengthy discussion about new Corry Hiebert (CH) furniture for components moving into NHB. [redacted] stated that OL/FMD will furnish an NHB component's space with a combination of new CH furniture, which the component funded earlier through ILSP, and the component's existing executive and CH furniture, which will be moved with the component. Concern was expressed that this represents a change from the "box move" which had been briefed by Bob [redacted] the former ILSP chairman. Several component representatives felt that they had been promised all new CH furniture. STAT STAT

A subsequent search of the earlier agreements shows that some components (such as NESA and OSWR) funded for all (or almost all) new CH furniture. Other components (such as MPSS) funded for only a few new CH workstations. Memos sent to components by [redacted] in 1987 will be brought to the next ILSP WG meeting, and the furniture and move policy will be further discussed at that time. STAT

I. [redacted] of NESA is to be commended for developing an outstanding move plan. The plan will be presented to the ILSP WG at the next meeting. Archiving or destroying unnecessary documents is an activity that is encouraged for all components prior to their scheduled move dates. STAT

4. OIT Topics

A. [redacted] presented the updated OIT NHB Schedules covering PBX, WANG, and Special Wiring. (Attachment 3) The PBX and WANG wiring teams are proceding on schedule; however, the special wiring team is encountering delays. Better dates will be provided at the next ILSP WG meeting. STAT

SUBJECT: ILSP Working Group Meeting Minutes - 7 March 1988

B. An updated Computer System Relocation Schedule was also presented. (Attachment 4) The next move scheduled is CAMS, although the date is not firm. A reminder was made of the 3-day shutdown over Memorial Day
STAT Weekend to accommodate the [redacted] Center move.

C. Two-way radios now in use will be supported in the NHB.

D. There were no new issues/concerns.

5. OS Topics

STAT A. [redacted] of OS/SESD said that the alarm hardware is installed on most floors, but the transmission lines and power to make it available for testing and operational use has not been installed by OL/NBPO and OIT. Al
STAT [redacted] will replace [redacted] as the ILSP contact for Alarm Systems. An AI was
STAT assigned to [redacted] to consolidate the NBPO, OIT, and FMD positions respectively on the status of power and lines required
STAT for the alarm systems and report at the next meeting. [redacted] was assigned an AI to setup a meeting to resolve these problems.

B. There were no new issues/concerns.

6. Outstanding Issues/Questions

A. OS has written a memo to DDA stating that some components require the use of safes in their operations to an extent greater than envisioned in the policy that called for the use of safes only in private offices. A copy of this memo will be provided as a handout at the next ILSP WG meeting.

B. Another reminder was made to notify OIR of OHB/NHB cable TV drop requirements.

7. General Issues or Concerns

There were no general issues or concerns brought forth when the ILSP WG members were polled. A suggestion was made to invite representatives of
STAT the OGC and OIG to attend the ILSP WG meetings. [redacted] asked if he could be provided layouts of where PPS was originally scheduled to be moved and
STAT where it is to be moved now. [redacted] will provide these to Chuck.
